CONFERENCE

Conference is in Queenstown this year. Great place to experience. And so handy for me too !!!

I will be there on 23rd and 24th May and look forward to seeing you all again. It is a great time to get acquainted with other Contractors, find out latest payroll changes, hear fantastic speakers, look at new gear and generally get fired up for the season ahead.

Although time is short, if you would like a users information and "new things" session sometime during the 2 days of Conference please let me know immediately, and I will try to arrange it.

Could be a learning curve for some and non-users may like to sit in as well ????

Tech Talk

This is not really technical talk, but have you noticed how common "self employed" shearers or "sub-contractors" are becoming lately? We need to address the ease of including these workers into our SHED COSTING and STOCK NUMBERS reports.

This is obviously going to become a more common way of working, so I hope to show you how we can do it easily.

Well the new Payroll has begun. I really hate the change to new updates and new ideas. But most of all, I really really hate the changes to the Employment Act. So many things have changed for the Shearing Industry:

- Sick Pay
- Public Holidays
- Holiday Pay
- Bereavement Leave

To mention a few items.

I hope you all have Employment Agreements in place. Legally, you have to by April 1 2005. If not, you could be fined considerable dollars!!!

It has been great to visit all the users in the North and South Islands. I have enjoyed the visits and meeting your new office staff as well as all the regulars.

If you would like a training session in your area, please let me know and I will endeavour arrange a suitable venue and time to suit everyone.

We have already held a session in South Canterbury and it was enjoyed by all.
